SHORT TERM COUSES 2019-20

COUSES TITLE : Advance Certificate Course in Cyber and security law

BRIEF DESCRIPTION: The curriculum of the study is designed in a manner where the students get an overview of the entire subject in the most comprehensive way. As this program deals intricately with information technology, it is necessary for candidates to have a good background of using computers. The program trains individuals get a deeper insight into the subjects of electronic governance, security of intellectual property, telecommunications, data protection and privacy.

Advance Certificate Course in Cyber Law qualifies candidates in getting a deeper insight into the regulations of cyberspace on national and international levels. After the completion of the course, students can further pursue their higher qualification in the subject. With the number of problems related to internet and information technology is on an increase, it has made this course an extensively career-oriented one.

OBJECTIVES:

The objectives of this program are to:

- Enable learners to understand, explore, and acquire a critical understanding of Cyber Law;
- Develop competencies for dealing with frauds and deceptions (confidence tricks, scams) and other cyber crimes for example, child pornography etc. that are taking place via the Internet;
- Make learners conversant with the social and intellectual property issues emerging from 'Cyberspace';
- Explore the legal and policy developments in various countries to regulate Cyberspace;
- Develop the understanding of relationship between commerce and cyberspace; and
- Give learners in depth knowledge of Information Technology Act and 'legal frame work of Right to Privacy, Data Security and Data Protection.
