Executive Summary

The Royal Enfield Hunter 350 Tour: Campus Edition was organised by the Royal Enfield company for the MBBS students and all the doctors with a motive to create a fun activity games atmosphere among the students as Game-based learning is an active learning pedagogical approach where games are used to increase student engagement. The student learns from playing the game and promotes critical thinking and problem-solving skills. The students along with respected principal Dr. (Col.) B K Prasad sir, had a fun campus tour of the bike where they experienced a ride in the campus. The team also sponsor the Medical college with the funds.

Name of Faculty	Department	Position
-----------------	------------	----------

Goal & Objective

The purpose was to improve personal discipline interaction with fellow players and create a sense of unity. Through play, driving away loneliness, mental stress, and depression is reduced. The students become more social.

Collaboration

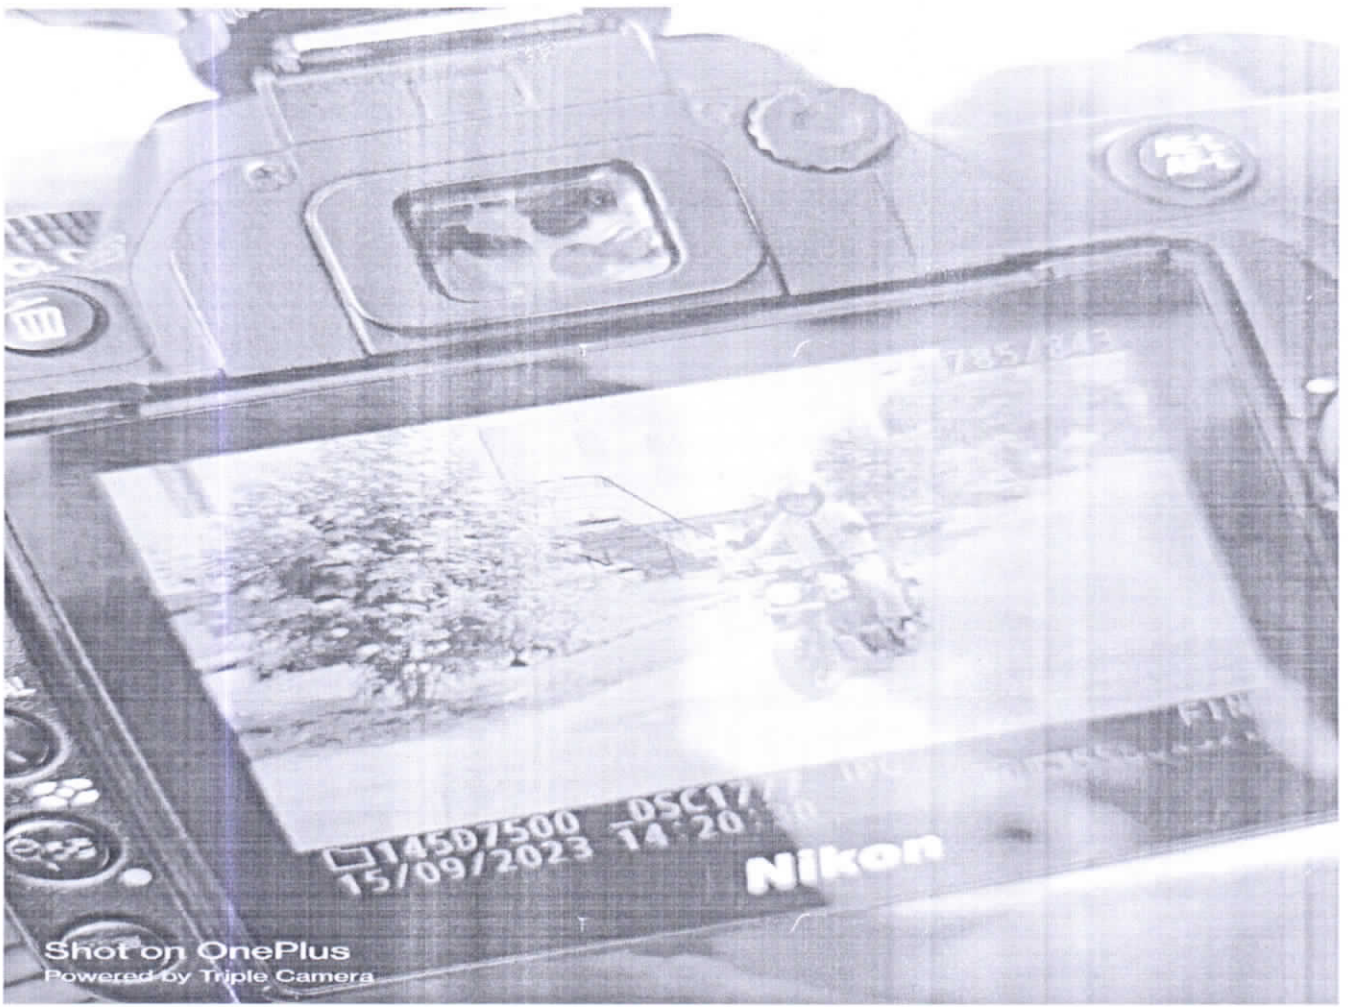

-

Outcomes

The main motto for organizing the event was aimed with a purpose that exercising outdoors isn't just good for your physical health. It helps the students with their mental health as well. Spending time in nature and natural light can improve mood and reduce stress and depression. Engaging in physical activity produces similar benefits and often times relaxes and cheers students up.
